

HID MOBILE ACCESS

What Is HID Mobile Access?

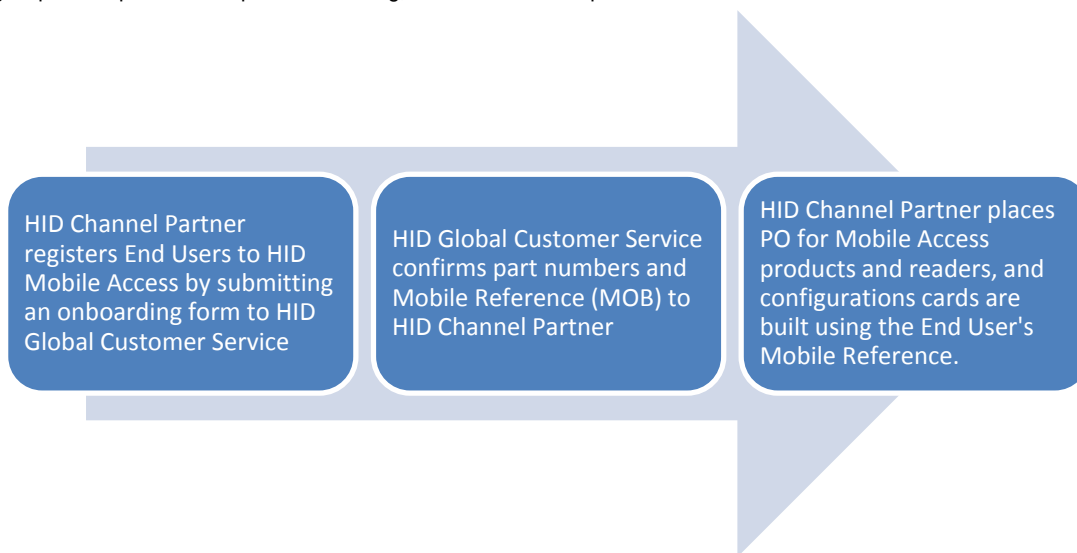

HID Mobile Access complements your existing access control solution. Besides using cards or fobs, staff can now securely access the facility using their Android or iOS mobile device.

HID Mobile Access, powered by Seos, consists of the following components:

- HID Mobile Access Portal: A management portal that allows you to manage users and securely issue or revoke Mobile IDs to users' handsets. The portal is available as a hosted service.
- HID Mobile Access Application: This app is available for Android and iOS devices, free of charge.
- Mobile IDs: The Mobile IDs with integrated Seos technology are for management of trusted identities. See details on ordering below.
- iCLASS SE mobile-enabled Readers. See details on ordering below.

Onboarding and Ordering

The following steps are required to complete onboarding, to be able to order products for use with HID Mobile Access:

To get more information on how to register for HID Mobile Access please contact your HID Global Sales Representative or HID Global Customer Service.

Contact information is available at: <http://www.hidglobal.com/customer-service>.

Solution Component Overview

Component	Details	Supplemental Information Needed for Order
Mobile Reference (MOB)	Mobile References are specific to a given organization and are confirmed during account setup. The correct Mobile Reference must be supplied when ordering HID Mobile Access Readers and configuration cards.	
Mobile IDs	Mobile IDs are virtual credentials electronically delivered to the Organizations Mobile Access Portal account. Part number: CRD633ZZ-xxxx Custom Mobile ID, xxxx specific to organization and issued at time of part number creation.	xxxx specific to organization
Mobile-Ready Readers	See iCLASS SE Readers . Mobile-Ready readers are prepared to support HID Mobile Access, but lack the personalized configuration to read an organization's specific Mobile IDs. These readers can be ordered at any time but will require field activation after the organization has completed registration for HID Mobile Access. To support a specific organization's Mobile IDs, these readers need to be personalized using a Mobile Key Card. Mobile-Ready readers can be ordered with NFC support only, or NFC and Bluetooth Smart support.	
Mobile-Enabled Readers	See iCLASS SE Readers . Mobile-Enabled readers are fully activated and personalized to support an organization's specific Mobile IDs. These readers can only be ordered after the organization has completed registration for HID Mobile Access and assigned a Mobile Reference (MOB) or HID Elite Reference (ICE). MOB or ICE will be required at time of order. Mobile-Enabled readers can be ordered with NFC support only, or NFC and Bluetooth Smart support.	Mobile Reference
Mobile Key Card	Configuration card used to personalize and activate a Mobile-Ready reader; converting it to a Mobile-Enabled reader. Part number: SEC9X-CRD-E-MKYD	Mobile Reference
Mobile Admin Card	Configuration card used to adjust Bluetooth range settings on Mobile-Enabled Readers. Custom part number: SEC9X-CRD-MAD-xxxx xxxx specific to organization and issued at time of part number creation.	xxxx specific to organization
